# WHAT IS COPY TRADING ?

Copy trading is a strategy where investors replicate the trades of experienced traders in real-time. This allows individuals to mirror the trading actions of professionals automatically.

## COPY TRADING WORKS :

1. Replication: The platform mirrors the selected trader's trades in the investor's account, adjusting positions proportionally..
2. Selection: Investors choose traders to follow based on performance metrics like historical returns and risk levels.

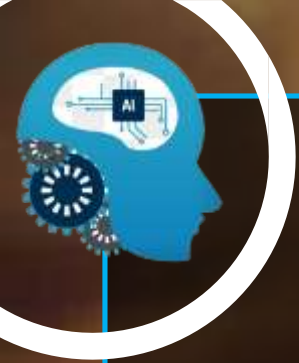

# **COPY TRADING** ADVANTAGES ?

- 1. Diversification:** Allows for risk spreading by copying multiple traders with different strategies.
- 2. Learning Opportunity:** Provides insights into trading strategies and market approaches.
- 3. Accessibility:** Enables those without trading expertise to participate by leveraging the skills of successful traders.
- 4. Time-Saving:** Eliminates the need for personal market analysis and trade management.

# **BENEFIT OF COPY TRADING ?**

## ➤ **Ease of Entry**

Enables novice investors to participate in financial markets without needing extensive trading knowledge or experience.

## ➤ **Time Efficiency**

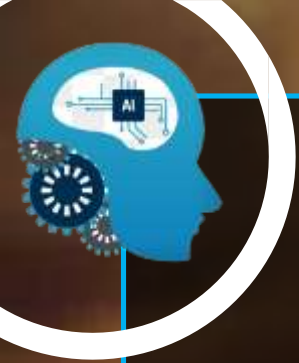

Saves time by automating trading decisions and execution, allowing investors to benefit from market opportunities without constant monitoring.

## ➤ **Simplicity**

Simplifies the trading process by allowing investors to replicate the trades of experienced professionals automatically.

## ➤ **Potential for Returns**

Offers the potential to achieve returns based on the success and strategies of skilled traders.

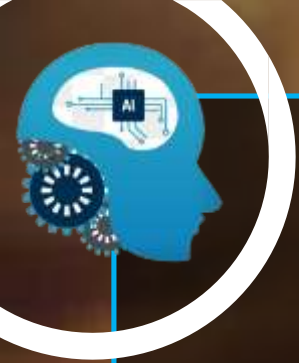

# **WHY TO CHOOSE COPY TRADING ?**

- 1. Risk Management:** Understand how the trader manages risk.
- 2. Strategy:** Ensure alignment with your investment goals and risk tolerance.
- 3. Performance:** Review historical data and consistency in returns.

**In Copy Trading, the trader trades with the investment made by you and the profit that he makes is automatically shown to you as by your investment. The Investor who has made the profit will see all these things on there ID's.**
